F.No: AICTE/NEAT Cell/01
Date: 29th July, 2021

As you all are aware that AICTE in its continued endeavour is providing opportunities and focussing on quality education to all the students studying in higher education. We are happy to share that NEAT Cell, AICTE has developed two portals to promote skill development and practical knowledge of the students. Link of both the portals are as given below:

1. <https://internship.aicte-india.org/>
2. <https://neat.aicte-india.org/>

The internship portal has been developed to enhance practical knowledge of the students. This is a platform where students can register themselves and get internship of their choice and industries can select students according to their merit.

NEAT portal provides a platform to Ed-Tech companies for facilitating students enabling their employability skills and bridging learning gaps. Here the student can choose the subject of his choice and pursue the advanced course according to the standards set by AICTE. In this portal, the policy has been made keeping in mind the interests of the poor and backward class students.

In order to harmonize the above two portals, a collective role of Educational Institutions, Training and Placement Officers (TPOs), Industries and students becomes equally important. The institutions should get all their students registered in the above mentioned portals and also bring the industries with which they have signed MoUs on the internship portal. The institutions may enter into MoUs with as many reputed industries as possible, so that all the students can get adequate opportunities. The institute can check and verify the company/industry profile on below link:

- <https://www.mca.gov.in/mcaportal/viewCompanyMasterData.do>
- <https://combiz.io/learning/check-company-registration-status-on-mca-website/>

In a view to spread awareness amongst all institutions and industries, AICTE organized an interactive session named *Industry Connect: Opportunities for Institute to Collaborate Industries* on 22nd July 2021. However, it is observed that most of the institutes had not attended the above said program, even after informing you through emails several times. Also, it is noted that most of the institutions had not provided the details of TPOs, 5 student coordinators and 5 MoUs which was communicated earlier via email.

In view of the aforesaid, it is again re-emphasized that your active participation is behest in upcoming such programmes to make it successful. You are once again requested to fill in the above details in the given *Google sheet link* [<https://forms.gle/GxXSCPqRVqGfqr29>] on priority basis so that we can contact directly the TPO and Student Coordinator for internship work. *Quality education is every student's right and we have to make continual efforts in it.*

Thanking You,

(Prof. MP Poonia)
